Full Stack Developer | AI & Data Science

SUMMARY

Full Stack Developer and AI & Data Science student with hands-on internship experience building REST APIs, microservices, and cloud-native applications using React, Spring Boot, and Docker. Engineered AI-powered and real-time platforms integrating LLM pipelines, WebSocket communication, and CI/CD workflows. Passionate about scalable system design and intelligent automation.

EDUCATION

Sri Krishna College of Technology

B.Tech – Artificial Intelligence and Data Science | CGPA: 8.65 / 10.0

Coimbatore, Tamil Nadu

Sep. 2023 – April 2027

Mangalam Higher Secondary School

Higher Secondary Certificate (HSC) | Percentage: 92.67%

Tamil Nadu

2023

EXPERIENCE

Full Stack Developer Intern

May 2026 – June 2026

Infinitt Solutions

Tamil Nadu, India

- Engineered responsive web applications using React.js and Spring Boot; designed and secured 5+ RESTful APIs with JWT-based authentication, role-based access control, and Agile sprint workflows.
- Managed PostgreSQL databases with Flyway migrations; optimized 10+ queries reducing average API response time by ~30%, improving overall system performance.
- Containerized a 4-service microservices application (Spring Boot, PostgreSQL, Redis, MinIO) using Docker Compose with CI/CD pipeline integration; wrote unit tests and integration tests using JUnit to ensure code reliability.

Python with Data Science Intern

May 2025 – June 2025

Nxt Logic Software Solutions

Tamil Nadu, India

- Automated data preprocessing and exploratory analysis on real-world datasets; engineered and evaluated ML models (classification, regression) using Scikit-learn, achieving consistent cross-validation accuracy.
- Designed 8+ visualizations using Matplotlib and Seaborn across temperature, rainfall, and humidity datasets, surfacing actionable trends for data-driven decision making.

PROJECTS

QuizLive – Real-Time Quiz Platform | React, TypeScript, Spring Boot, WebSocket, Redis, PostgreSQL, Docker

- Architected a full-stack real-time quiz platform (Slido-inspired) supporting 50+ concurrent sessions with live leaderboards, animated participant experience, and dark presenter view for hosts.
- Integrated JWT auth with refresh tokens, role-based access control, and QR code session joining; implemented Spring WebSocket + STOMP for real-time communication and Redis for leaderboard caching, reducing latency by ~40%.
- sparklo-in.vercel.app | github.com/kaviya-sh/QuizLive

BlogCuration – AI-Powered Blog Curation Platform | Svelte, Spring Boot, PostgreSQL, Redis, Ollama/Mistral, Docker

- Engineered a full-stack automated blog curation system with an LLM integration pipeline (Ollama/Mistral) that discovers, scores, and publishes 100+ articles nightly via prompt engineering and REST API design.
- Architected an admin dashboard with pipeline controls, editorial profile management, and AI behavior configuration; deployed with Docker Compose across 5 services with automated scheduling support.
- Implemented personalized user feeds, keyword/URL-based article discovery, EN/FR translation toggle, and AI blog post generation – reducing manual curation effort by ~80%.
- github.com/kaviya-sh/Blogcuration

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and deployed a fully responsive portfolio with CSS animations and cross-browser compatibility; achieved 90+ Lighthouse performance score. kaviya-shanmugam.vercel.app

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C++, HTML, CSS, SQL (MySQL, PostgreSQL)

Frameworks & Libraries: React.js, Svelte, Spring Boot, Spring Security, WebSocket (STOMP), Zustand, Tailwind CSS, Pandas, NumPy, Scikit-learn

Developer Tools: Git, GitHub, Docker, Docker Compose, CI/CD, Vite, Maven, Vercel, VS Code, IntelliJ IDEA

Databases & Cloud: PostgreSQL, MySQL, Redis, MinIO, AWS (Cloud Practitioner)

Concepts: REST API Design, Microservices, System Design, LLM Integration, Prompt Engineering, Unit Testing (JUnit), Agile/Scrum

CERTIFICATIONS

HackerRank: Problem Solving (Basic), Software Engineer Certificate

Infosys Springboard: Java Programming Fundamentals, React JS, Machine Learning and Data Analytics

Amazon Web Services: AWS Cloud Practitioner Essentials

ACHIEVEMENTS & PARTICIPATION

Smart India Hackathon 2024 & 2025 – Selected as participant in national-level government hackathon

LeetCode: Solved 400+ problems (Data Structures, Algorithms, System Design) – leetcode.com/u/727823TUAD047
